Index to Volume 46—1978

A

A digital databack timer 61
A simple method of including a one-millimeter grid in a photograph 13
Abstracts 26, 97, 132, 193
Alignment, Optical of copy camera to assure film and subject parallelism 24
Allan, Garry, RBP 57
Angiography, Fluorescein of the brain—the photographic procedure 67
Annual Meeting, Seattle, Washington, 48th ... 7, 44, 98, 118
Architectural photography, Controlling perspective distortion in 35 mm 124
Arthur, Elizabeth, Ph.D. 109
Aquavella, James V., M.D. 109

B

Beamer, James L. 115
Book Reviews 28, 55, 114
Bowens, Bruce A. 13
Brain, Fluorescein angiography of the—the photographic procedure 67
Breese, Sydney S., Jr. 125
Brown, Roosevelt 9

C

Cepull, Jeffrey 26, 97, 132, 193
Certification—A measure of competence 201
Certification Program Guide, Registered Biological Photographer 205
Certification program, The 30, 108, 204
Clearing and drying Polaroid 55 P/N film in conjunction with scanning electron micrography 125
Compton, John C. 159
Controlling perspective distortion in 35 mm architectural photography 124
Copy and title slides, 101 ways to make . . . some of them good! 141
Copyright, The act of 1976 ..... 31, 46
Corona, Photographic detection of electric field 115
Crinoids, Photographic techniques for the study of modern 3

D

Databack timer, A digital 61
Department, Experience with the Kodak Royalprint processor in a biophotography 93
Detection of electric field corona, Photographic 115
Driscoll, John 109

E

Electroencephalograms, Quality reproduction of large .. 133
Electron micrography, Clearing and drying Polaroid 55 P/N film in conjunction with scanning 125
Ellis, John 167
Exhibiting, there's more to the print than the print, When 9
Experience with the Kodak Royalprint processor in a biophotography department 93
Exposure determination, Facts behind 159
External eye photography, Guidelines for 155
Eye photography, Guidelines for external 155

F

Facts behind exposure determination 159
Federico, Mary A. 136
Feindel, William, M.D., Ph.D. 67
Fiber-optic photography of polyacrylamide disc gel 167
Flower, Robert W. 15
Fluorescein angiography of the brain—the photographic procedure 67
Fluorescence photography, Monitoring tar therapeutics with 80
Fundus photography, Wide-field versus small-field 15

G

Gel, Fiber-optic photography of polyacrylamide disc 167
Gibson, H. Lou, RBP, FBPA, Hon. FPSA 171
Glazier, Ralph M., RBP 125
Gordon, Award, The William V. for 1977 90
Graver, Nicholas M., RBP, FBPA 93
Gray, David E., RBP, FBPA 201
Grid, in a photograph, A simple method of including a one-millimeter 13
Guide, Certification Program, Registered Biological Photographer 205
Guidelines for external eye photography 155

H

Hendrix, John 80
Hodge, Charles P., RBP, FBPA, AIMBI 61, 67, 133
Hurtgen, Thomas P. 6, 83, 154

I

Image transfer: Producing 16 mm instructional film from videotapes 109
In black and white 6, 83, 154
Infrared color photography for the examination of lichens used in pollution damage experiments 105
Instructional films from videotapes, Producing 16 mm: Image transfer 109

K

Kauppi, Matti, Phil. Lic. and Anneli Kauppi, Phil. Lic. .105

L

Lichens used in pollution damage experiments, Infrared color photography for the examination of 105
Little, Judith E. 133

M

Macurda, Donald B., Jr., Ph.D. 3
Massey, Richard 124
Method, A simple of including a one-millimeter grid in a photograph 13
Monitoring tar therapeutics with fluorescence photography 80

N

Nerve-fiber layer, Photography of the retinal—A technique using red-free light 136
New Products 18, 84, 126, 194
Nyberg, William C., RBP 24

O

101 ways to make copy and title slides . . . some of them good! 141
O'Neill, Jerome P., Jr. 18, 84, 126, 141, 194
Optical alignment of copy camera to assure film and subject parallelism 24

P

Patient photography, Pediatric photography in comparison to adult 57
Pediatric photography in comparison to adult patient photography 57
Peters, Marybeth 31, 46
Photographic detection of electric field corona 115
Photographic techniques for the study of modern crinoids 3
Photography, Infrared color, for the examination of lichens used in pollution damage experiments 105
Photography of the retinal nerve-fiber layer—A technique using red-free light 136
Polaroid 55 P/N film in conjunction with scanning electron micrography, Clearing and drying 125
Pollution damage experiments, Infrared color photography for the examination of lichens used in 105
Print, When exhibiting, there's more to the print than the 9
Producing 16 mm instructional films from videotapes: Image transfer 109

Q

Quality reproduction of large electroencephalograms ...133

R

Red-free light, A technique using—Photography of the retinal nerve-fiber layer 136
Registered Biological Photographer—Certification Program Guide 205
Reproduction of large electroencephalograms, Quality ..133
Royalprint processor in a biophotography department, Experience with the Kodak 93

S

Schmidt, Award, 1977 Louis B. 25
Slides, 101 ways to make copy and title . . . some of them good! 141
Stenstrom, William J. 9, 155
Sustaining members 24, 92, 104, 230

T

The Biological Photographic Association, Its Half Century—The Era of Formation, 1931 to 1950 171
The copyright act of 1976 .....31, 46
Thompson, Christopher J., MSC 61
Timer, A digital databack 61
Title slides, 101 ways to make copy and . . . some of them good! 141

V

Videotapes, Producing 16 mm instructional films from: Image transfer 109

W

When exhibiting, there's more to the print than the print 9
Wide-field versus small-field fundus photography 15

Y

Yamamoto, Y. Lucas, M.D., Ph.D. 67
